INDEX TO VOLUME 57, 2006

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
* = Case-Oriented Paper

Akkan, C.:
(*see* Karabatı, S.)
Al-Anzi, F. S.:
(*see* Allahverdi, A.)
Allahverdi, A. and Al-Anzi, F. S.:
Scheduling multi-stage parallel-processor services to minimize average response time, 101
Allen, L. N. and Rose, L. C.:
Financial survival analysis of defaulted debtors, 630
Altınel, İ. K.:
(*see* Aras, N.)
*Andreeva, G.:
European generic scoring models using survival analysis, 1180
Aras, N., Özkısacık, K. C. and Altınel, İ. K.:
Solving the uncapacitated multi-facility Weber problem by vector quantization and self-organizing maps, 82
Arenas, M.:
(*see* Bilbao, A.)
Azaiez, N.:
(*see* Hariga, M.)
Azcarraga, A.:
(*see* Setiono, R.)
Azizoğlu, M.:
(*see* Bilgin, S.)

Ballestero, E., Bielza, C. and Pla-Santamaria, D.:
A decision approach to competitive electronic sealed-bid auctions for land, 1126
Banjevic, D.:
(*see* Lin, D.)
Barad, M. and Engel, A.:
Optimizing VVT strategies: a decomposition approach, 965
Beashel, G.:
(*see* Higgins, A.)
Bell, P. C. and Chen, J.:
Cutting costs or enhancing revenues? An example of a multi-product firm with impatient customers illustrates an important choice facing operational researchers, 443
Bell, P. C. and Zhang, M.:
Management decision-making in the single period optimum pricing problem, 377
Belton, V.:
(*see* Losa, F. B.)
Belton, V.:
(*see* Montibeller, G.)
Berbel, J.:
(*see* López-Baldovin, M. J.)
Berger, P. D. and Zeng, A. Z.:
Single *versus* multiple sourcing in the presence of risks, 250
Berger, P. D., Lee, J. and Weinberg, B. D.:
Optimal cooperative advertising integration strategy for organizations adding a direct online channel, 920
Bermúdez, J. D., Segura, J. V. and Vercher, E.:
Improving demand forecasting accuracy using nonlinear programming software, 94
Bertrand, J. W. M.:
(*see* Ivănescu, V. C.)
Bhaskar, T. and Kumar, U. D.:
A cost model for N-version programming with imperfect debugging, 986
Bhattacharya, A.:
A goal programming approach for developing pre-harvest forecasts of crop yield, 1014
Bielza, C.:
(*see* Ballestero, E.)
Bilbao, A., Arenas, M., Jiménez, M., Perez Gladish, B. and Rodríguez, M. V.:
An extension of Sharpe's single-index model: portfolio selection with expert betas, 1442
Bilgin, S. and Azizoğlu, M.:
Capacity and tool allocation problem in flexible manufacturing systems, 670
Birgin, E. G., Martínez, J. M., Mascarenhas, W. F. and Ronconi, D. P.:
Method of sentinels for packing items within arbitrary convex regions, 735
Biskup, D. and Feldmann, M.:
Lot streaming with variable sublots: an integer programming formulation, 296
Boctor, F.:
(*see* Privé, J.)
Boylan, J. E.:
(*see* Shale, E. A.)
Brailsford, S. C.:
(*see* Evenden, D.)
*Budai, G., Huisman, D. and Dekker, R.:
Scheduling preventive railway maintenance activities, 1035
Burke, E. K., MacCarthy, B. L., Petrovic, S. and Qu, R.:
Multiple-retrieval case-based reasoning for course timetabling problems, 148

Caixeta-Filho, J. V.:
Orange harvesting scheduling management: a case study, 637
Cao, D.:
(*see* Leung, L. C.)
Cardós, M., Miralles, C. and Ros, L.:
An exact calculation of the cycle service level in a generalized periodic review system, 1252
Carlsson, D.:
(*see* Gunnarsson, H.)

SUBJECT INDEX

(This index includes all *papers*)

Acceptance sampling plans 450
Accounting 337
Action research 802
Affordability 655
Agent-based modelling 1279
Aggregation of preferences 1241
Agriculture 367, 490, 637
AHP 190, 682
Allocation 38
Ambulances 22
Analytic hierarchy process 1197, 1491
Annealing schedule 1143
ANP 682
Applications 1264
Assignment 241
Attribute graph 148
Autopoiesis 1064
Availability constraints 703

Backlogging 140
Balanced scorecard 682
Balking rates 416
Bandwidth allocation 1323
Banking 337, 655, 1180
Batch process industries 2
Batch service 711
Behaviour 1224
Bid 1472
Bidding 1126
Binary 469
Bootstrapping 400
Boundary critique 1064
Branch-and-bound 271
Branch-and-bound algorithm 460
Break-even analysis 965
Buyer and transporter coordination policies 281

Capacitated lot-sizing 140, 389
Capacity allocation 670
Case-based reasoning (CBR) 148
Casualty collection points 727
Causal maps 779
Cellular manufacturing systems 1100
Chlamydia 1400
Client/consultant relationship 939
Cluster analysis 1313, 1425
Clustering 241
Clusters 1289
Coalition 603
Cognitive maps 779
Combat modelling 38
Combinatorial optimization 718
Compartmental model 1413
Computational comparisons 541
Computational complexity 133
Computers 1383
Concave transportation cost 281
Condition-based maintenance 910
Conflict analysis 510
Consumer debt 630
Container packing 1452
Container selection 1452
Control 290, 304, 423
Conversation 813
Cooperative advertising 920
Cost analysis 711
Costing 250
Costing and pricing 1353
Court-administered repayment plan 630
Coverage models 22
Cox proportional hazards regression 630
Credit and risk scoring 655
Credit scoring 1180
Crew rostering 1173
Critical realism 202
Critical systems thinking 1027, 1064
Critique 202
Customs inspection 1313
Cutting problems 735
Cycle service level 1252

Data envelopment analysis 552, 1366
De Novo programming 1216
DEA 1289
Decision analysis 190, 250, 434, 643, 885, 1126, 1300, 1341
